

Carlie Hall
Fossil Ridge High School
Earth Science and Physics

renewable energy!

The classroom

- ❑ Fun and laughter
 - ❑ Critical skills and common sense
 - ❑ Preparation for the next level of education
 - ❑ Technology!
 - ❑ Hands-on experiences, inquiry
-

Carlie the teacher

- ❑ I love to develop lessons about current events in science (oil spill, Iceland volcano, earthquakes in Haiti and Chili)
 - ❑ I want students to ask questions I don't know the answer to so we can learn together.
 - ❑ I love to be involved in the school outside the classroom as a class sponsor, club sponsor and coach.
 - ❑ I love to be silly and tell dorky jokes
-

Physics and GK-12

- Next year will be my first teaching physics so I am very excited to have Matt as an expert in the classroom.
 - I am excited to develop new lessons, enhance my knowledge, and get students excited about college and research.
-
